- Security Control Assessment / Validation (RMF, NIST 800-53)
- Continuous Monitoring (RMF, NIST 800-137)
- System Hardening (Implementation of STIGs; security patching)

#### IT Support

- Network Management
- VMware Management
- Help Desk Support
- Cisco Administration
- Network Hardware Support
- System Administration

#### Test & Evaluation

- Independent Verification & Validation (IV&V) Testing
- Stress Testing (Scenario support; combat weapons systems support)

## Differentiators

- Our highly-specialized staff commits to delivering superior IT services to our customers that are cost-effective.
- By partnering with us, your organization is closer to meeting your socioeconomic goals.
- Our experienced staff are experts in our areas of competence with over 13 years of IT experience
- Our staff holds key industry certifications such as: Security+, CISSP, and CCNA.

## Past Performance

### Hewlett-Packard Enterprise (July 2016 – Present)

Forge.mil Omnibus Support – Provided Cybersecurity support to DISA information systems that includes risk assessment, contingency planning, and securing Cloud Computing environments. Provided additional support with system accreditation documentation development under the Risk Management Framework (RMF) process.

- Performance of work was exceptional and exceeded customer expectation by successfully transitioning all information systems from DIACAP to RMF in a short 90-day period.
